PROFESSIONAL SUMMARY

Aspiring Data Analyst and B.Tech Computer Science student with practical experience in data analytics, data cleaning, exploratory data analysis and dashboard development. Proficient in Python, SQL, MySQL, Power BI, Tableau and Excel. Completed analytics internship projects involving retail sales analysis and customer churn analysis. Interested in using analytical techniques to solve business problems, identify trends and support data-driven decisions.

TECHNICAL SKILLS

Programming Languages: Python, Java, C
Data Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Data Interpretation
Databases: MySQL, MongoDB, Neo4j
Visualization Tools: Power BI, Tableau, Microsoft Excel
Libraries and Tools: Pandas, NumPy, MySQL Workbench, VS Code, Git, GitHub

INTERNSHIP EXPERIENCE

Future Interns **May 2026 – July 2026**
Data Science and Analytics Intern

- Performed data analysis, data cleaning and visualization using structured datasets.
- Completed retail sales analysis to identify product category performance and business trends.
- Developed a Tableau customer churn dashboard to explore customer behavior and retention patterns.

Internship Studio **2026**
Data Analytics Intern

- Processed and analyzed retail sales datasets using Python and MySQL.
- Designed an interactive Power BI dashboard to present sales performance and customer insights.

PROJECTS

Movie Recommendation and Review System GitHub
Python, Flask, MongoDB, Neo4j, HTML, CSS, JavaScript

- Developed and deployed a full-stack movie application with user authentication, movie discovery, ratings and review management.
- Integrated MongoDB for application data storage and Neo4j for graph-based relationship management.
- Implemented personalized movie recommendations using user preferences and movie relationships.

Retail Sales Analysis *Python, MySQL, Power BI*

- Analyzed retail sales data to identify category-wise performance and customer purchasing trends.
- Developed an interactive Power BI dashboard to communicate sales metrics and business insights.

Customer Churn Analysis GitHub
Tableau, Data Analytics

- Analyzed customer churn and retention patterns using structured data and interactive visualizations.
- Presented customer behavior insights through a multi-worksheet Tableau dashboard.

EDUCATION

B.Tech in Computer Science and Engineering **2023 – 2027**
JNTU-GV College of Engineering, Vizianagaram
CGPA: 7.21/10

CERTIFICATIONS

- Data Analyst with Python – freeCodeCamp
- Data Science and Analytics Internship – Future Interns
- Data Analytics Training and Internship – Internship Studio
